## Indoor Flying Resumes in January! Yay!

I am pleased to let you know that indoor flying at York will start up again in January. Unfortunately our first two indoor flying dates in November had to be cancelled because the Red Cross used the Gym as a temporary shelter for residents of an apartment fire in the north

end of the city. As we were unable to find alternate dates, the University has refunded the cost of the cancelled dates to the club. But we still have 8 more indoor flying days in 2020! We are using the "Field House" in the Tait McKenzie Building at 1 Thompson Rd within the York University campus. Look for details and a map of how to get there in the November Flyer. Here are the remaining dates.

Day	Date	Time
Sunday	Jan 05, 2020	9:00 AM - 11:00 AM
Sunday	Jan 12, 2020	9:00 AM - 11:00 AM

## Santa Says: "Happy Holidays!"

Santa wishes you all a very joyous holiday and a Happy and Healthy New Year for 2020. May you enjoy a year of sunny days, clear blue skies, calm winds, safe landings, short smooth grass, batteries that never quit and aerobatics filled with the grace and beauty of ballet in the sky.

## December 4<sup>th</sup> Meeting Report

### Building a **REALLY BIG** Beaver - Jon Holmes

WOW! Jon's huge 110" Mr. Aero - Design Martin Resseau DHC2 Beaver was awesome! You can see from these pics that Jon is a meticulous builder and his creativity and love for building projects came through in his talk describing how he came across this rare kit and what made him decide to build it. There is still a lot of work to do but we are hoping we will be able to see a maiden flight this season.

Jon's goal is to get it ready for flight testing first and then work on adding final finishing and scale details later. We will try to keep you posted on his progress. We thank Jon for bringing it to the December meeting. Enjoy these pics.
