

Humber Valley R/C Flyers

Come and learn to fly with us!

Visit us at www.hvrcf.org

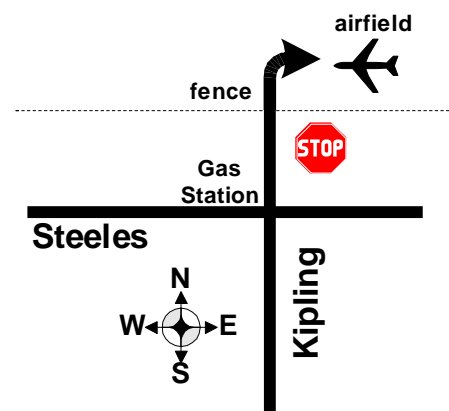

Welcome to Humber Valley Radio Controlled Flyers. We welcome new and experienced R/C enthusiasts and enjoy the use of an excellent flying field located close to the heart of Toronto (Kipling and Steeles Avenue). If you want to break into Radio Controlled flying, Humber Valley is the place to do it. We offer a "wings" flight instruction program based on the buddy box system to help you learn to fly safely and ensure that you still have a plane to fly when you get your "wings". The club conducts a full schedule of summer and winter activities.

| Summer Activities | Winter Activities |
|---|--|
| <ul style="list-style-type: none"> • Flight instruction with qualified instructors • Great flying at our field close to Toronto • Summer and Fall Fun Fly and Bar BQ • Annual free summer swap meet at our field • Combat Events and Sport flying • Free Advice, Free Fun, Free Friends | <ul style="list-style-type: none"> • Annual General Meeting (AGM) held in February to review the past flying season, review and approve the club's financial statements for the previous year and budget for the coming year and elect club executives for the next year. • Winter Zoom meetings to discuss club issues and provide information seminars. • Monthly newsletter with news and events • Indoor flying at York University • New Year's Day Event -1st fly of the year • Winter February Frozen Finger Fun Fly and Bar BQ |

We take safety very seriously and focus on the enjoyment of Radio Control sport flying. To join our club or for more information on the instruction program, visit our field (map at right), come to any monthly winter meeting (map below), or call:

Past President, Tom Gottlieb
