

Humber Valley Meeting Announcement

Wed Dec 4th 2013 @ 7:30pm
Northwood Community Center
New Room #7 - Basement Level

Please note that the winter meetings are scheduled on the first Wednesday of each month from October to April. Come out to meet other members, participate in club discussions, make suggestions for next year, and enjoy a winter program of speakers, movies, special events and more. **Feel free to bring a friend.**

Here's how to get there: Take Sheppard Ave East of Jane or West of Keele to Arleta Ave. Turn north on Arleta to Clubhouse Court. Turn right to **#15 Clubhouse Court**. The Northwood Center is straight ahead on the left. *Note that Clubhouse Court does not meet Sheppard Ave. You have to get to it from Arleta Ave.*

Come Hungry to the Dec 4th Meeting

Program director, **Jon Holmes** decided he was getting tired of pizza at the winter meetings and is mixing it up with other tasty treats. Will it be Pizza? Will it be KFC? Maybe it will be Chinese food? Who knows?

The only way to find out is to come to the meeting and taste for yourself. No time to stop in for dinner before the club meeting? No problem! Just come to the meeting hungry.

2014 Renewal Reminder

The new 2014 membership application form is attached to this Flyer and we will have copies available at the December 4th meeting. Please note the fee for renewals before Jan 1st is only \$75.00. What a deal!

Make sure you have the correct amount in cash or bring a cheque to the meeting to renew. You can also mail your application form and cheque to **Bruce Gillespie**. It is important to fill in all the required information clearly so that we have accurate data in our membership database.

Calendar of Upcoming Events

Wed Dec 4 th	Club Meeting <ul style="list-style-type: none"> • Membership renewal drive • Vote on Constitution Changes • Everything About Indoor Flying
Wed Jan 1 st	New Year's Day Fun Fly - 11am
Wed Feb 5 th	Club Meeting <ul style="list-style-type: none"> • Executive Elections • Annual General Meeting (AGM)

December 4th Meeting Program:

Everything you always wanted to know about Indoor Flying but were afraid to ask!

Indoor flying at the North Albion Collegiate has started and the Dec 4th meeting will be all about Indoor. We will have:

Indoor Show and Tell:

Bring in your favorite indoor airplane and tell us about where you got it, how it flies and what you like and don't like about it.

Indoor Tips and Tricks:

Club President **Paul McMillan** will lead a discussion of what works and what doesn't when it comes to indoor flying and will share with you what are the best designs and materials to use as well as his secret flying tips.

Question and Answer:

Bring in that nagging question you always wanted to ask and see if you can stump our experts. If we don't know the answer, we will make one up that sounds plausible. ☺

Amazing Videos:

We have a video presentation of some competition indoor flying that will knock your socks off. You will not believe what these planes can do in tight spaces in the hands of an expert.

Indoor has started at North Albion Collegiate

We also want to remind you that we have started the winter indoor flying at North Albion Collegiate. The first session was held on Nov 16th. We have locked in the following dates. **All flying is from 12:30pm to 2:30pm.**

- November 30
- December 7 and 21
- January 4 and 18
- February 1 and 15
- March 1 and 15

Watch the forum and upcoming Flyers for any updates on indoor flying.

Note: North Albion Collegiate Institute is located just south of the field at 2580 Kipling Avenue on the west side.

Nov 6th Meeting Program Report Zoltan Pittner – 3D Printing!

Well – you don't see that every day. Zoltan did not disappoint us at the November meeting. This was one of the most interesting and unusual presentations we have ever had at a Humber meeting. We had not one, not two, but three different 3D

printers going and after "printing" a 6" glider just to warm up, Zoltan went on to explain how this new technology works. You can make everything from servo mounts to household appliance parts. To finish off the evening, we saw a demonstration of the 3D software that lets you draw any 3D part and transfer it to the machine for printing.

Sir Arthur Charles Clarke was a British author, inventor and futurist, famous for his short stories and novels, among them 2001: A Space Odyssey (1968). In 1962 he wrote:

"Any sufficiently advanced technology is indistinguishable from magic."

This technology certainly fits that definition. Thanks to **Zoltan Pittner, Michael Walker** and **Mitch Raducanoiu** who brought in and demonstrated these innovative printers for us.

Your 2013 Executive Committee

- President, Paul McMillan (905) 851-7387
- Past President, Pat Knight..... (416) 225-2687
- Vice President & Editor, Tom Gottlieb (416) 781-3189
- Treasurer, Bruce Gillespie (416) 741-4385
- Danny Karaiskakis, Secretary..... (416) 356-1295
- Program Director, Jon Holmes (416) 614-0052
- Field Officer, Ernie Dawson..... (416) 247-7750
- Chief Instructor/Safety Officer Tony Phan (416) 436-8088

Changing the Constitution – Tom Gottlieb

As indicated in the November Flyer, we will vote on the proposed changes to the constitution at the December 4th meeting. If you are coming to the meeting you can vote in person. If you are not going to be able to make the meeting, and you have not already done so, I encourage you to participate and send in your proxy form attached. **Here are three convenient ways to send it in.**

- 1) Print sign and FAX it to Tom Gottlieb @ 416-781-2212.
- 2) Print sign and scan it and email it back to tgott@sympatico.ca.
- 3) Print sign and mail it back to the address on the form.

During the November meeting the proposed changes were discussed and one additional change was adopted. This has to do with Article 3 which says:

Article 3. Purpose

The purpose of this Club shall be the advancement and safe enjoyment, to the fullest extent possible, of the recreational and competitive activity of radio control fixed wing model aircraft.

Due to the increasing presence of helicopters and multi-rotor machines, and the existence of the helicopter field, some members thought this article should be relaxed a bit to acknowledge and not exclude the use of rotary wing machines. Therefore a small change was discussed and adopted to say:

Article 3. Purpose

*The **main** purpose of this Club shall be the advancement and safe enjoyment, to the fullest extent possible, of the recreational and competitive activity of radio control fixed wing model aircraft.*

With this change, Tom Gottlieb proposed the motion to adopt the new constitution and it was seconded by Pat Knight. The vote will be held at the December 4th meeting.

Field Maintenance Update

Ernie Dawson is always looking for volunteers who might be interested in helping out next season with mowing using our cool Gravely zero turn tractor. Here is a new future member and volunteer who wants to sign up. He's just a bit young don't you think Ernie? Maybe he should get his driver's license first!

If you are interested in helping out with any aspect of field maintenance, just contact **Ernie Dawson** (number at left).
