December Meeting Report The Mystery of Lift - Cecil Wood

Humber Valley thanks Cecil "Woody" Wood for an interesting talk on the theory of lift. He gave us a different view on what makes our models fly and how we seem to defy the forces of gravity when we perform inverted flight and other 3D maneuvers. We hope to see Woody at the field this year as he was very happy to receive his 2011 honorary club membership which is our way of saying thanks to winter meeting speakers.

Steve Simpson introduces Cecil Wood at the December meeting

Note: We are always on the lookout for interesting topics and speakers for upcoming winter meetings. Contact Steve Simpson, Program Director with your suggestions.

December Meeting Show and Tell

John Thompson keeps on proving that his reputation as an expert builder is well deserved with this coroplast Super Cub he brought in the to the December meeting. He used a copy of plans from Gary Del Bel Belluze who was clearly happy to see a clone of his very successful coroplast prototype Cub built from his plans. John modified the wing from a one piece to a two piece design for easier transport and is powered by a small gas engine – something around 30cc's if I recall. We will look forward to seeing it in the air.

If you are paying cash, **PLEASE BRING THE EXACT AMOUNT** if possible and your **COMPLETED** renewal form. We will also have extra forms on hand.

If you wish to nominate someone for any executive position, you may do so in advance or from the floor prior to the elections. Please be patient and follow instructions at the meeting as we will need to check members against the member list prior to the vote to ensure that we have a quorum of 2011 members attending.

Treasurer's Note:

Please make sure to have both your club membership and MAAC membership up to date if you intend to fly at the New Year's Day Fun Fly. All memberships received to date will be processed and mailed out. If I receive your membership before Dec 31st, you may not receive your card in time, but your status will be updated and you can fly.
