

## Humber Valley's Meeting Announcement Tuesday Dec 2<sup>nd</sup>, 2008 @ 7:30pm

Here's how to get there: From the 401 East or West, exit at Keele Street North. Turn right on Sheppard Ave, and follow Sheppard to the entrance to Downsview Park. Turn right into the park onto John Drury Lane until you reach Carl Hall Road. Turn left at Carl Hall and continue east over the railway tracks to the museum, which is on your right.

**Here's how to get there:** From the 401 East or West, exit at Keele Street North. Turn right on Sheppard Ave, and follow

## December 2<sup>nd</sup> Program Announcement John Dutkoski; Jets, Fiberglass & Vacuforming

John is a past speaker at Humber Valley and is the Canadian manufacturer of a high quality line of ducted fan jets. His jets offer excellent handling characteristics, and relatively easy building procedures. If you've already built a couple of airplanes and are comfortable with fast, quick handling aircraft, then you're ready to step up to the excitement of electric ducted fan jets!

John will speak on fiberglass forming, and also talk about his kits and building supplies. John will also be conducting a demonstration of easy vacuum forming techniques and will demonstrate his line of Dura-Grit products. **NOTE:** Some items will be available for sale too. **Don't miss this opportunity to see a**

**great presentation at the December meeting!** Visit [www.modelsbyjohn.com](http://www.modelsbyjohn.com) for more information.

## Free Pizza at the December Meeting!

There's nothing like good food to ensure a good meeting and the Humber Valley Pizza Club is going into its 4<sup>th</sup> year now due to popular demand. No time to stop in for dinner before the club meeting? No problem! Just come to

the meeting hungry. Better get there early though, before the mad rush, to make sure you get the best selection.

## November 4<sup>th</sup> Program Report Rael Herman – Airship Solutions

Rael provided a very interesting talk on the challenges and fun of running a business based on using his RC blimps for aerial photography and advertising. He showed us his high quality RC camera equipment (below right). These puppies are huge – see photo (below left):

## Humber's 2<sup>nd</sup> Annual Dream RC Raffle

This is just what you need to spark up the winter and win yourself a nice present for the holiday season. This is a huge RC Raffle with **five great prizes** worth over \$600 retail. But you can't win if you don't buy some tickets. The more you buy, the better your chances of winning!

This year the raffle prizes were sponsored from a number of sources. The club wishes to thank:

- **Graeme Mears:** who donated the Futaba Radio.
- **Zoltan Pittner:** who donated the Wing Dragon through his supplier New Generation Hobbies: [www.nghobbies.com](http://www.nghobbies.com).
- **Merv Beetham** (former member): donated the Smith Miniplane kit.

and ...

([www.hobbyhobby.com](http://www.hobbyhobby.com)) generously discounted the Piper J-3 Cub and Vapor RTFs in support of the club's raffle this year!

**Thanks again all sponsors!**

### Here's the deal and all the rules.

- 1) Raffle tickets will be sold at the Dec 2<sup>nd</sup> and Feb 3<sup>rd</sup> meetings (there is no January meeting).
- 2) The raffle will be drawn at the end of the February meeting.
- 3) You must have renewed your 2009 membership to qualify for the draw.
- 4) Write your name on each ticket purchased and we will enter them in a sealed box for the draw.
- 5) Can't attend? No problem. Just mail your cheque and tickets to Dan Paluzzi, Treasurer at the address on the draw ticket form attached.
- 6) If you attend the February meeting and your name is drawn, you may select your preferred prize from the remaining prizes.
- 7) You need not attend the February meeting to win. If your name is drawn and you are not in attendance, you will be called to collect your prize. However, you will be awarded a remaining prize not picked by attending winners.
- 8) Any member may win only one prize. If your name is drawn twice, another ticket will be drawn for the next prize.

### Ticket prices are:

- **\$2.00 each**
- **\$5.00 for 3 tickets**
- **\$10.00 for 7 tickets**

### Prize #1: Futaba 6 Channel Radio!

**Graeme Mears** has generously donated this Futaba 6EX – 6 channel 2.4GHz radio for our raffle. How good is that? Buy your tickets now to win this great prize.

### Prize #2: Smith Miniplane R/C Sport Scale Biplane

Finally – here's a prize for you builders out there. This kit is a semi-scale model of Glen's Smith Miniplane and is a fun flying machine! It's

smooth and stable, yet provides plenty of excitement in the aerobatic department. An outstanding roll rate makes for dizzying snap rolls and it looks as good as it flies. It is a 40 size biplane with a wingspan of 44 inches weighing in at a trim 5 ¼ lbs. This plane would be awesome with a .65 or .70 4-stroke!

### Prize #3: Hobbico FlyZone® Piper J-3 Cub RTF

Combine classic Cub styling, realistic flying performance and the completeness of a FlyZone RTF, and the result is the easy way to enjoy R/C flight. Four-channel control puts the all-foam Cub's full performance potential at your fingertips. And with a FlyZone flight package, there's nothing between you and takeoff except 8 "AA" batteries and a few minutes of easy assembly! This Cub has a 36 ¼ inch wingspan.

### Prize #4: Wing Dragon 4 channel RTF with full aileron control from Hobby Lobby

This ready to fly electric will take off from the ground quickly and will perform most aerobatic maneuvers. Everything needed to fly is included in the box: complete airplane model with pre-installed radio, servos, speed control and

motor, 4 channel transmitter (needs 8 AA cells), 8 cell 9.6 volt 1000 mAh rechargeable NiMH flight battery, 120 volt wall charger and decals.

### Prize #5: Vapor RTF Indoor Electric

Innovation, convenience and ease of flight – the Vapor is an ultra-micro flyer for everyone. Small enough, and slow enough to be flown in a basement, garage, living room, or other indoor spaces. This great-looking model includes throttle, rudder and elevator providing true 3-channel flight and maneuverability.
