

Humber Valley's Meeting Announcement Tues Oct 2nd, 2007 @ 7:30pm

Here's how to get there: From the 401 East or West, exit at Keele Street North. Turn right on Sheppard Ave, and follow

Sheppard to the entrance to Downsview Park. Turn right into the park onto John Drury Lane until you reach Carl Hall Road. Turn left at Carl Hall and continue east over the railway tracks to the museum, which is on your right.

Free Pizza at the October Meeting!

There's nothing like good food to ensure a good meeting and the Humber Valley Pizza Club is going into it's 3rd year now due to popular demand. No time to stop in for dinner before the club meeting? No problem! Just come to

the meeting hungry. Better get there early though, before the mad rush, to make sure you get the best selection.

Calendar of Upcoming Events

Tue Oct 2 nd	Opening Winter Meeting at the TAM @ 7:30 PM
Nov 2, 3 & 4	!!!!!!! The Hobby Show !!!!!!!
Tue Nov 6 th	Club Meeting
Tue Dec 4 th	Club Meeting: • 2008 Renewal Drive
Tue Jan 1 st	New Year's Fly In – at 12 NOON
Tue Jan 1 st	NOTE: Club Meeting Cancelled!
Thu Jan 31 st	Election Nominations Deadline
Tue Feb 5 th	Club Meeting • Executive Elections • Annual General Meeting

Chief Instructor's Report – Pete Heeley

September 27th marked the end of the Student Wings Program for 2007. We had another successful year full of the usual fun and mishaps along the way. We are happy to report that the club now has 7 new pilot members. Congratulations to the following members who cleared this year:

- Steven Dean
- Mitch Mihnea
- Danny Mustacato
- Rocco Vita
- Robert Carriero
- Bruce Gillespie
- Al Gosselin

Those who cleared are reminded there will be a presentation ceremony at either the November or December club meeting, so watch the Flyer for the Wings Awards notice and please try and attend to receive your Wings.

My thanks are extended to all who participated in the instruction program this year, especially the club instructors who, once again, did such a splendid job.

... **Pete Heeley** – Chief Instructor.

First Club Winter Meeting–Oct 2nd @7:30pm

- Open discussion on club business
- Movie invitation
- Show and tell invitation

So where the heck did the summer go! Here it is – Fall already! We hope you had a great flying season and enjoyed the good weather. But don't despair, those long hot dog days of summer were great but the wonderful display of fall colours and cool weather still makes for great flying in the coming months. Later, you can dust off your skis and fly right through the winter!

Discussion: The first Club Winter Meeting is set for Tuesday October 2nd at 7:30pm at the museum. We plan on having an open discussion forum on everything and anything members want to discuss about the 2007 season and anything that you want to change in 2008. Think about what you loved and maybe what you didn't like so much in 2007 and come and express your opinion. Like they have been saying in the provincial voting ads – *"don't let someone else speak for you"*.

Movies: We will have a laptop computer and video projection available at the meeting so bring in your favorite clip on a CD or memory stick and bring it in so you can show it off at the meeting.

Show & Tell:
Got an interesting story to tell or a cool model to show off? Bring it in for 5 minutes of glory in front of your fellow members.

Tom's Bad Boy on floats might make for good "Show and Tell" material

29th Annual Hobby Show is Coming! November 2nd to 4th

Don't forget to attend the Hobby Show at the International Center this year for great bargains and a look at all the latest in RC. Visit the hobby show web site at www.thehobbysshow.com.

Show hours are:

Friday	November 2 nd	12PM to 9PM
Saturday	November 3 rd	10AM to 8PM
Sunday	November 4 th	10AM to 6PM

ADMISSION: ADULTS \$12.00, SENIORS and KIDS 6 TO 12- \$8.00, Under 6 – FREE

Field Officer Report - Gary Del Bel Belluz

Our field officer **Gary Del Bel Belluz** is constantly working behind the scenes on field improvements and maintenance. The city provided us with a used mower as promised and it has worked out great this season. Thanks to the dry weather in September, we didn't need much cutting to keep the grass in great condition for smooth take offs and landings.

The new mower makes short work of cutting operations.

Gary also installed the chain link fence panels this year so we now have a continuous fence line between flight stations and the flight line as required by MAAC safety rules. Please ensure that you stay behind the fence when flying your aircraft.

Thanks again goes out to Jim Wakelin and his Metro West District Parks Department staff for the use of the mower.

--- THANKS JIM!

Maintenance - The Secret to RC Success!

If you want to ensure continuous success in RC, you have to have a lot of respect for Murphy's Law and constantly be on the lookout for anything that might go wrong with your model.

If you ignore it for long, it will bite you sooner or later and potentially cause a crash. The best modelers check out their planes after each flying day and look for loose hinges, servo or mounting screws or bolts that have become loose from vibration, clevis joints and retainers, engine mounts, fuel tubing

connections and clunk movement, loose covering etc. It's not an accident that the best flyers keep coming back to enjoy their planes day after day. They all perform routine maintenance inspections and repairs between visits to the field.

Good Maintenance = Good Flying

Something to think about ... Editor

Kitchener-Waterloo Scale Rally – Sep 8th Attended by Humber Members

One way to add variety to your modeling experience is to attend one or more of the RC events held around southern Ontario over the summer. The annual Kitchener-Waterloo Scale Rally was held on September 8th and there were 4 flyers from the club who all put on great displays. Gary's cub wowed the crowd as it knife edged across the field. It even had floats. John flew his new Beaver well and had a great landing. Rick almost won the "most spins" contest with his Albatross with 27. The winner had 35. Rick's were, however inverted. Rocco had the crowd on edge as he flew his P-51 at full throttle (linkage stuck) until he could land it. There were some great 3-D flying demos for all to enjoy.

Jon Holms and his DeHaviland Beaver

Gary's Cub and Jon's Beaver in the "on deck" circle.
